

Eco Flex.par H

Plastic half-wing

Plastic half-wing manufactured through injection moulding using post-consumer recycled polypropylene (minimum PCR content $\geq 50\%$), suitable for automotive use.

Material

R-PP

Colour

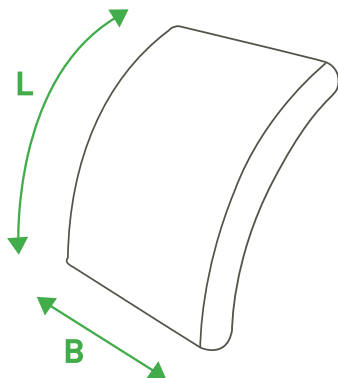

Matte black

Technical specifications

- Smooth finish.
- High resistance to both high and low temperatures.
- Excellent resistance to diesel fuel and chemicals.
- Anti-UV treatment for increased durability over time.
- Lightweight, facilitating transport and installation while helping reduce vehicle fuel consumption.

Sustainability

The Eco Flex.par line is manufactured using raw materials with a minimum of 50% post-consumer recycled (PCR) content—a choice that combines high performance with reduced environmental impact. Furthermore, the thermoplastic mudguards are fully recyclable at the end of their life cycle.

Anti-spray system

Designed for quick and easy installation of Flex.spray mudflaps. Also available on request in a pre-assembled configuration with integrated anti-spray system.

Customizations

Custom colour: available with a minimum order of 1,000 pieces. Company logo: applicable via screen printing.

Installation

Pre-drilled holes and brackets available upon request. Easy and quick installation.

Accessories

Various mounting kits available.
