

Eco PEK6

Fire extinguisher box

Fire extinguisher box for 6 kg extinguishers, manufactured through injection moulding using post-consumer recycled polypropylene (minimum PCR content $\geq 50\%$).

Material

R-PP

Colour Options

Black with red or black cover.

Sustainability

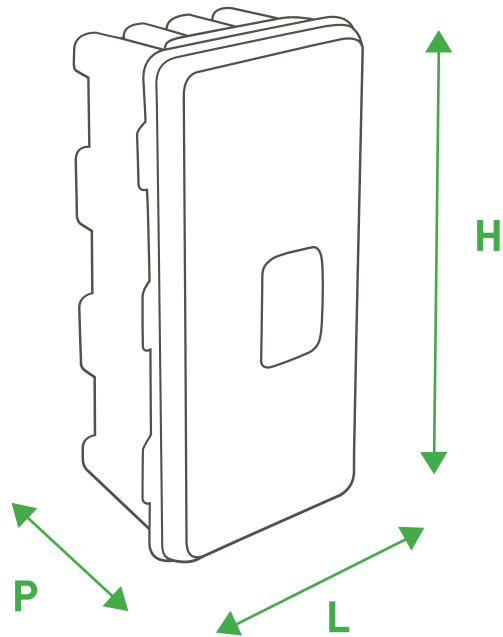

The Eco line is manufactured using raw materials with a minimum of 50% post-consumer recycled (PCR) content—a choice that combines high performance with reduced environmental impact. Furthermore, the fire extinguisher boxes are fully recyclable at the end of their life cycle.

Eco PEK6

Technical features

- Sealing gasket that ensures maximum protection from external elements, safeguarding the extinguisher against moisture and dust.
- Two handles equipped with an anti-vibration system to prevent accidental openings.
- Base designed to guarantee maximum stability of the extinguisher during transport and use.
- Central ring for optional padlock closure.
- High resistance to both high and low temperatures.
- UV treatment for increased durability over time

Customizations

Company logo applicable via screen printing, embossed injection molding or label.

Installation

- Can be mounted both horizontally and vertically, with opening to the right or left.
- Prepared for wall or vehicle installation with pre-drilled holes.
- Mounting kit included.
- Available pre-assembled or disassembled.
- Quick and intuitive assembly, tool-free.
